FBI Findings May Close Baker Case

Senate Probers Ask Grand Jury Look at Accuser

WASHINGTON (AP) — Democratic senators have stamped "unworthy of belief" the secret testimony of a key witness in the Bobby Baker investigation — and made that the epitaph of their long and stormy inquiry.

That judgment was based on a Justice Department report of FBI findings on a stream of accusations leveled by Maryland insurance man Don B. Reynolds.

It came late Tuesday from the Democratic majority of the Senate Rules Committee, over the protesting votes of three Republicans.

At the same closed session, the Rules Committee voted to ask that the Justice Department send Reynolds' sworn testimony along with the FBI findings, to a federal grand jury to determine whether there is a basis for a perjury indictment.

The committee also asked that all the testimony it has heard during the politically charged investigation be sent to the grand jury to determine whether anybody should be indicted for perjury.

Reynolds named President Johnson, Senate Democratic Leader Mike Mansfield of Montana, Rules Committee Chairman B. Everett Jordan, D-N.C., Sen. Howard W. Cannon, D-Nev., Sen. George A. Smathers, D-Fla., and a cast of other men in public and private life in his closed testimony last Dec. 1. The FBI interviewed people who denied each accusation he made.

Reynolds, a business associate of Baker, said the former secretary to the Senate's Democratic majority who resigned under fire in October 1963 told him of a \$100,000 payoff on the controversial TFX warplane contract.

He talked of influence allegedly brought to bear on other defense contracts, and of "a big sex party" in a New York hotel.

Reynolds' testimony itself was not made public. Sections of it were quoted in the Justice Department report filed by Atty. Gen. Nicholas Katzenbach.

In one, Reynolds talked of a bag full of money and the TFX contract. The report told it this way:

"Reynolds said 'I was in Bobby's office and he said to me 'Did you see that man going out of the office?' and I said 'Yes.' And he said 'That is Mr. Evans.' To the best of my recollection, the president of Grumman Aircraft. And he said 'Do you see this flight bag on my desk, this blue bag,' and I said 'Yes.'"

"He said 'Would you like to see what is in it?' I said 'Open it.' And he opened it up and there were hundred-dollar bills. . . and he says '100,000 for the TFX contract.'"

But Llewellyn J. Evans, senior vice president of Grumman, said he never went to Baker's office and never paid Baker "100,000 or any other sum of money for any purpose whatsoever."

Ash Wednesday Ushers In Lent

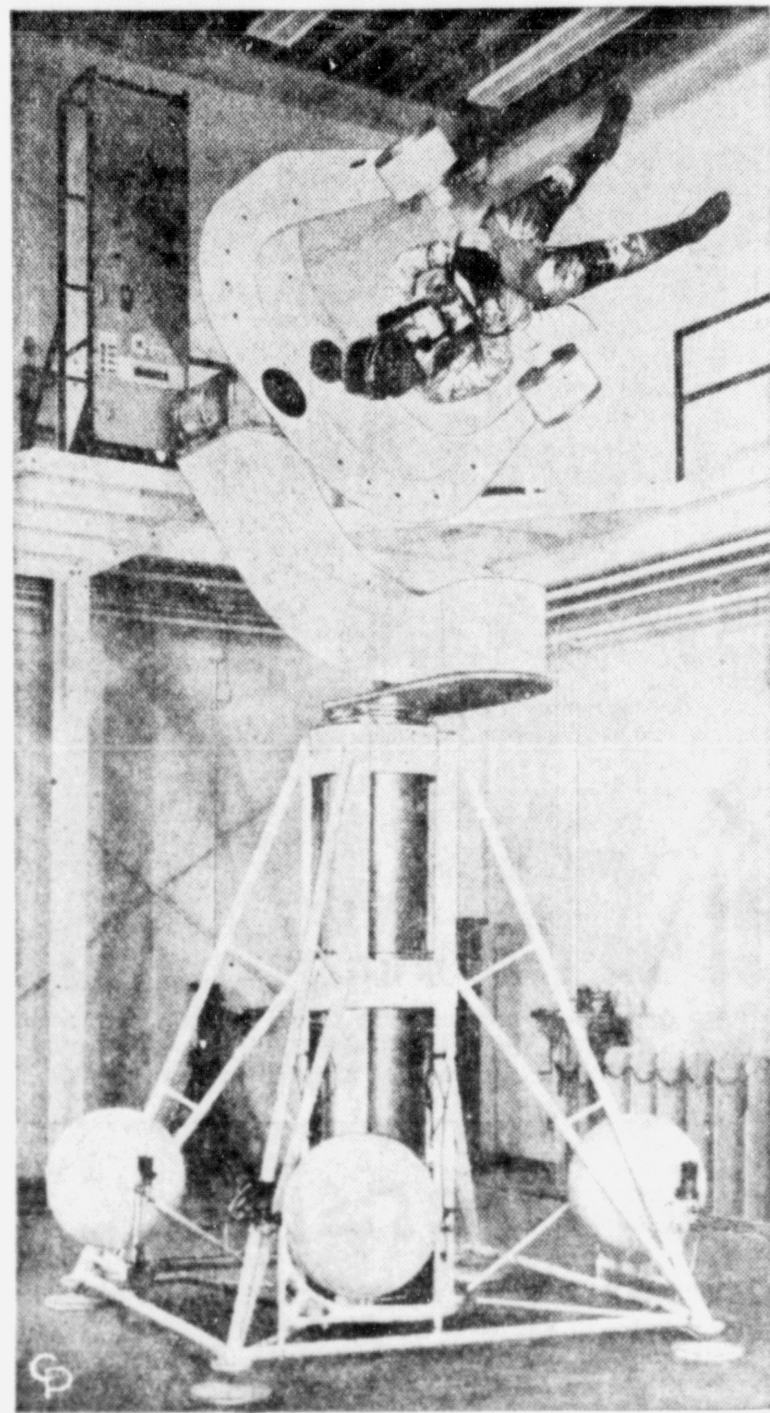

NEW YORK (AP) — Ash Wednesday today ushered in the penitential season of Lent which ends with Easter on April 18.

The word "Lent" comes from the Anglo-Saxon "lencten," meaning spring. The 40-day period actually covers 46 days because the six Sundays are not counted.

In early Christianity there was a three-week preparation for Easter. The period was fixed at 40 days in the 4th century, largely because of the symbolism associated in the Bible with the number 40 — the 40 days of the deluge, the Hebrews' 40 years in the desert before entering the Promised Land, and Christ's 40 days of fasting before starting his public ministry.

IN MAKE-BELIEVE ORBIT — A scientist finds himself suspended high above the ground as he tests an advanced research vehicle for the evaluation of tests that men will perform in space. The device, tested in a San Diego plant, permits the astronaut to float in mid-air free of friction.

New Electrical System Approved For Courthouse

Installation of a new electrical distribution system at the Courthouse was authorized yesterday by the Board of County Commissioners.

The step was taken to correct what has been termed an "overloaded" power condition in the building. A lump sum cost for the improvement was set at \$960.

Fair Fund Distribution Is Announced

State Auditor Chester W. Goble announced today the distribution of the Ohio Fair Fund totaling \$797,052.60 to the 94 county and independent fairs of the state and the Ohio Exposition Commission, formerly the Ohio State Fair.

The fund included \$5,500 forwarded to the Pickaway County Fair.

These funds are derived from the state tax of one-half of one per cent on pari-mutuel wagering at Ohio race tracks during 1964.

Gen. Goble pointed out that the current distribution represents an increase of \$102,178.39 over last year's payment. It brings to \$5,237,624.34 the total distributions since the fund was created by legislative enactment in 1957.

In accordance with the law, the Ohio Exposition Commission receives \$60,000 while the various county and independent fairs will share in amounts ranging from \$2,500 to \$10,057.30 each. The commission's \$60,000 will be used for purses for stake races for two-year old and three-year old colts and fillies.

The local fairs will each receive \$2,500 for general operations. Those which conduct racing will receive an additional \$3,000 of which \$2,500 goes for purse money and \$500 for track maintenance.

Fairs which hold four stake races for 2 and 3-year-old colts and fillies will also receive an additional \$4,557.30. This will provide for a maximum of \$10,057.30 for each of the 62 fairs holding such races.

CHS Science Fair Judging Is Slated

Projects in the Circleville High School Science Fair will be judged beginning 7 p. m. tomorrow in the high school gymnasium.

The Science Fair projects will be open to public viewing starting 7 p. m. Friday. Awards will be made beginning at 7:30.

U.S. Business Boom Enters Its 5th Year

Peacetime Push Heads for Mark Set during War

WASHINGTON (AP) — The astonishingly durable business boom, entering its fifth year this week, will become the longest peacetime expansion in history if it continues into May.

If that happens, only the World War II boom, 6 years and 8 months, will surpass the current expansion.

In April the present boom will have lasted 50 months — exactly the duration of the slow, low-grade 1933-37 climb from the depth of the Great Depression. That upward struggle, hardly an expansion at all, ended with 10 million still jobless.

By contrast, the 48 months just ended have brought unprecedented gains in production and incomes, virtually without inflation, while reducing unemployment from 6.7 per cent to 4.8 per cent.

By an almost equally striking contrast, the steady 1961-5 growth has been virtually free of the inflation which marred the 80-month World War II boom.

Secretary of Commerce John T. Connor Tuesday rejected the possibility of any early downturn. The economy is marching ahead smartly, he said, paced by massive output of steel and autos.

Connor discounted fears of a slump after midyear. Many suspect this might occur if industry's massive build-up of steel inventories, as a hedge against a steel strike, is followed by a sudden halt in buying because of a quick wage settlement.

Overstuffed steel inventories will have less impact than in past years of strike threats, Connor said, because of the rapid rate of consumption this year.

The secretary broke another bit of good news: Planned industry outlays for plant and equipment this year will be \$2 billion to \$3 billion bigger than previously estimated. A new private survey indicates a 12 to 14 per cent rise this year, Connor said, instead of the 8 per cent foreseen a few months ago.

Connor's optimism reinforced the official view that the recovery will last into 1966. Whether it also can endure through 1967, and thus erase even the wartime record for sustained growth, remains to be seen.

Dems Defeat Appalachia Bill Changes

WASHINGTON (AP) — House Democrats seemed confident today they could beat back any further efforts to alter the \$1.1-billion Appalachia aid bill. They hope to win passage by nightfall.

Already passed by the Senate, the bill would go directly to President Johnson if there are no House changes.

The administration's top priority measure is aimed at bolstering the economy of 11 states in the Appalachia area.

By overwhelming majorities, Democrats Tuesday battered down five Republican assaults on the measure first proposed by President John F. Kennedy and embraced by Johnson.

At the end of the day, the House tentatively had approved the heart of the program, a provision for use of \$840 million in federal funds over a five-year period to build new highways and access roads in the Appalachia area.

Periodically, the bookie calls the housewife and picks up his messages. He then calls the bettors, takes the bets and gives a fictional name for a housewife and a telephone number to call the next day for another round in the operation.

Murphy said some housewives have been handling calls for several bookies. Big volume bookies use more than one housewife.

Murphy warned that housewives performing such services were "aiding and abetting a criminal activity" and liable to a \$50 fine and five days in jail.

18 Red Nations Rap U.S. for Viet Bombing

New High School, Atwater Contracts Are Let by Board

The Circleville Board of Education last night awarded the general, mechanical and electrical contracts for construction of the new high school and four elementary rooms at Atwater School.

Successful bidder for the general contract was Sever-Williams Co. of Washington, D. C. The firm's proposal amounted to \$850,550.

The bid was \$44,000 under one offered by Don King Construction Co. of Jackson, the only other firm to submit a bid.

Sever-Williams was previously awarded the bid for the Franklin-Mound and the High St. elementary buildings. The general contract includes site improvement and landscaping.

THE CONTRACTOR for the plumbing, heating and ventilating was awarded to Geiger Brothers of Logan. The firm's bid was \$230,350.

Burroughs Electric of Columbus, with a job offer of \$118,184, was successful bidder for the electrical contract.

The bids total \$1,199,084, well within the estimates of the architect, Kellam and Foley, according to Fritz Jacob, superintendent of Circleville Schools.

Jacobs pointed out the proposed building at the new

high school site and at Atwater will cover 89,000 square feet. The estimated cost per square foot will be less than \$13.50 per square foot, he said.

Cost proposals for equipment were also considered during yesterday's bid opening session. However, Jacobs said it will require at least 30 to 60 days to analyze and review all types of equipment before final action can be taken.

The equipment, includes chairs, chair desks, drafting tables, wood working benches, cabinets, shelving, teacher desks, folding chairs, home economics tables, bleachers, library equipment, science furniture, language laboratory, kitchen equipment, art room equipment and other furniture. He

estimated costs of the equipment at \$170,000.

JACOBS said the target date for completion of the new high school and the four rooms at Atwater is the first of September, 1966.

Current plans call for the elementary buildings already under construction to be ready for occupancy by Sept. 1965 or shortly after the school term opens.

Also submitting bids for the plumbing, heating and ventilating contract were the Gesling Co., J. A. Guy, National Corp. and A. J. Stockmeister.

Other bidders for the electrical contract were Electric Power Equipment Co. and L. Paul Miller.

Some Strange Expenses Run Up by U.S. Senate

WASHINGTON (AP) — Many odd, unrelated and fascinating facts about the Senate came to light today with the publication of a six-month report by its secretary, Felton M. Johnson.

For example: The Senate spent \$2.66 million on "miscellaneous" items, which is more than the \$2,471,000 the members and the vice president draw in pay.

It costs \$58,370 to transport members from Washington to their homes twice a session.

Last July the Senate bought 72 whiskbrooms for \$38.88 and spent \$11.88 having its service knives sharpened and \$23.85 repairing its sewing machine.

Unaccountably, it also invested \$27.90 in alpaca coats and \$449.05 in 25 blankets in that steaming month.

The Senate library, playing it safe after the July Republican national convention, bought two copies each of two books about Barry Goldwater. The total outlay was \$3.50.

Last July was a busy month and the senators used up \$46,722 in long-distance telephoning while paying out \$33,538 for local phone service. The bill for official telegrams, rendered in August, ran to \$62,953.

July and August often found the senators and their staffs thirsty. The Senate was billed \$479 for bottled water in July and \$688 in August.

Going social, the Senate Foreign Relations Committee put on a series of luncheons for visiting dignitaries. The layout for Chancellor Ludwig Erhard of West Germany ran \$339.78. But

Bloodmobile Due Here Tomorrow

The Red Cross Bloodmobile will pay a scheduled visit to Circleville tomorrow.

Blood program spokesman said the mobile unit will set up operations at the First Methodist Church. Donors may visit the collection point from 11 a. m. to 5 p. m.

Local officials are hoping to collect at least the minimum quota of 125 pints.

Mrs. Roloff Wofford, executive secretary for the local Red Cross Chapter, said there is an urgent need for blood for a 5-year-old girl now undergoing heart surgery. The youngster has a positive type blood.

Lady Mayor Orders Public Wash Machines

CITERNA, Italy (AP) — Housewives in this central Italian town are convinced that they made the right choice in electing a woman, Flora Volpini, as mayor.

Her first official act Tuesday was to install four new washing machines in a public site free to all. Many of Citerna's housewives have done their washing along the banks of streams.

New Tension Said Created

But Expert Sees Trouble in Kremlin

MOSCOW (AP) — Representatives of 18 Communist parties today assailed the United States for "barbarous bombings" in Viet Nam and creating dangerous new international tension. They demanded an end to the raids and an immediate U.S. withdrawal from South Viet Nam.

The statement stressed Communist unity but Red China and its allies in the Communist ideological dispute did not attend the Moscow meeting. The statement did not speak for them.

The statement on Viet Nam, a separate document from the meeting's over-all communique, was carried in part by the official Soviet news agency Tass.

"The barbarous bombings of populated centers on the territory of Socialist Viet Nam created a new situation in Southeast Asia fraught with serious aggravation of the international situation as a whole," the statement said.

The 18 parties expressed solidarity. (Continued on Page 2)

Once Around Roundtown

A LARGE crowd was on hand for today's "Safety Tea" sponsored by the local Du Pont plant.

The session, which started at 10 a. m. in the Fairgrounds 4-H and Grange Building, featured an address by Miss Sara Miles, a home consultant for the National Safety Council in Chicago.

Another highlight included numerous displays directed toward aspects of home safety. . . Also on the agenda were entertainment, door prizes and refreshments.

SOME of our alleys apparently weren't made for today's version of truck transportation. . . A big tractor-trailer assembly was having quite a time of it this morning trying to make a turn from an alley onto W. Franklin St. . .

An eye witness report noted the vehicle driver needed several minutes of backward and forward movement before he was able to negotiate the turn. . . His desperate efforts forced a traffic halt on Franklin St. during the interlude.

Gotham Firm Low On OSU's Dorms

COLUMBUS, Ohio (AP) — George Driscoll Co. of New York City has entered the apparent low bid of \$7,508,000 for general construction work on two Ohio State University's new 24-story river dormitories, the university reported today.

Driscoll said his firm can have the dorms ready for occupancy by Sept. 15, 1966, if granted the contract.

The university's housing commission which includes President Novice G. Fawcett, can award the contract. Other work on the projects including plumbing and heating, electrical facilities and kitchens, would bring the total cost of the project to an estimated \$15 million.

'No Parking' Specialist Ticketed for Parking

SPRINGFIELD, Ohio (AP) — The auto of a salesman from Columbus, Thomas (Tim) Welsh, was ticketed for a parking violation Tuesday while he was in the Clark County Office Building meeting with County Engineer Roger F. Borchers.

Nothing really unusual about that, except the salesman was representing a firm which, in addition to other items, deals in signs including those reading "no parking."

Fresh GOP Image Urged

Morton OKs Part Of Burch Analysis

WASHINGTON (AP) — GOP National Chairman Dean Burch's assertion that the Republicans have to recast their long-time party image to win elections got the endorsement today of Sen. Thurston B. Morton, R-Ky.

Morton, a former national chairman who heads the Republican senatorial campaign committee, said he agrees with Burch's contention that the seeds of the 1964 election defeat go back for years in which the GOP failed to respond to needs of the times.

But Morton was far less pessimistic in an interview about the possibility of defeating President Johnson in 1968 than Burch was in a report Tuesday to national chairman-elect Ray Bliss who takes over next month.

"I'm not sure, lacking any dramatic external event or sudden crisis, whether any incumbent can ever be turned out of the present-day office of president — and its powers increase, along with its leverage, with every passing day," Burch said in his report.

"It's been done before and we can do it again," Morton said. "Of course, if we don't make gains in next year's Senate and House elections, I'd feel we wouldn't have much chance for the presidency two years later."

As he has done before, Burch blamed last November's election loss on a legacy of sympathy for the assassinated President John F. Kennedy, on Johnson's use of the federal bureaucracy, on the ideological split in the party and on elements of the press.

Morton said he could not agree that the press could be blamed for what he said the Republicans did to themselves.

"When you make news, the press will print it, whether its good or bad for you," he said. "When we deserve the breaks, we'll get them."

Ailing Cardinal's Aide Takes Over

CHICAGO (AP) — Albert Cardinal Meyer is hospitalized after removal of a malignant brain tumor but his work as head of the nation's largest Roman Catholic archdiocese is being carried on.

The Most Rev. Cletus F. O'Donnell, vicar general of the Chicago archdiocese, has assumed full responsibility and authority of the cardinal, spiritual leader of two million Catholics in the Chicago area.

Auxiliary Bishop O'Donnell referred to his new duties as "minding the store."

Surgeons at Mercy Hospital, where Cardinal Meyer underwent a four-hour operation last Thursday, said Tuesday a tumor removed from the cardinal's brain was cancerous.

MARKETS

Hog prices, all net, were reported by the Bowling Stock Yards company here today as follows:

190-220 lbs., \$17.25; 220 - 240 lbs., \$16.75; 240-260 lbs., \$16.25; 260-280 lbs., \$15.25; 280-300 lbs., \$15.25; 300-350 lbs., \$14.75; 350-400 lbs., \$14.25; 180-190 lbs., \$16.75; 160-180 lbs., \$15.75.

CASH prices paid to farmers in Circleville:

Can You Remember When —

NEW YORK (AP) — Memory is man's best friend and boon companion.

Memory makes us wise — or at least careful. You probably have minted many a sad or merry memory yourself if you can look back and remember when—

An enterprising lad could make his spending money in summer going from door to door selling flypaper.

It was testified that Clara Bow, the glamorous "It Girl" of the movies, lost some of her \$35,000 weekly income playing kitchen poker with her household help.

Meat shops always had sawdust on the floor and the butchers wore straw cuffs. Many of the old-timers chewed tobacco as they worked.

Hatcheck girls usually got only a dime from a customer and weren't too upset if he left only a nickel.

Most dogs lived and died without even wearing a tag, being treated by a veterinarian, having a license, or being taken to a canine beauty parlor.

You could tell how cold it was by how the icicles congealed on the full veils worn by dignified old ladies.

Your stature in a small community was partly determined by the number of times you had read the Bible all the way through.

It also was a mark of distinction if you had a worn buffalo robe to keep you warm when you went riding in a horse-drawn sleigh.

A lot of people were secretly ashamed of old furniture in their homes which is now being eagerly sought as antiques.

The first thing a newly married couple bought was a big bright brass bedstead.

Mother wore a needle in her dress and kept thread in her pocket because she had to be ready to do emergency sewing for the kids all day long.

Everyone thought it hilarious that heavyweight boxer Gene Tunney read William Shakespeare during training for a bout. (Most of the fans who jeered him couldn't read two lines from a poem by Edgar A. Guest without moving their lips.)

The nation was awed by a report that film star Lilyan Tashman had an emerald cover for a certain fixture in her bathroom.

Those were the dear old days. Remember?

By Hal Boyle

Looking Back In Pickaway County

FIVE YEARS AGO

Approximately 183 persons donated blood during the visit of the Red Cross Bloodmobile, resulting in the second straight time the county quota was topped.

Mr. and Mrs. Jacob W. Glitt planned to observe their 25th wedding anniversary with open house in their new home, 305 Sunset Drive.

A surprise party was held honoring the birthdays of Mr. and Mrs. Howard H. Ett, Ashville.

TEN YEARS AGO

A truck that went out of control and overturned on W. Main St. tied up traffic for several hours.

E. R. Buchwalter, a representative of The Temperance League of Ohio, was guest speaker at the First EUB Church observance of Temperance Sunday.

Installation of officers was a highlight of the meeting of the Royal Neighbors of America held in the home of Mrs. Eugene Thurston, Logan St.

TWENTY-FIVE YEARS AGO

Mrs. Joseph Krummel of Vevay, Ind., was the house guest of her son-in-law and daughter, the Rev. and Mrs. Robert T. Kelsey, E. Mound St.

Sixteen teams had signed up to compete in the second annual basketball tournament to be conducted in the Circleville Athletic Club.

Earl Weaver, Emmitt Crist, John Dunlap Jr. and Jack Treglo left by car for a 10-day trip to Phoenix, Ariz.

Saree Penharkkul at the Long Island Jewish Hospital in New York, it was noted that, although some newborn infants cried with real tears within the first six hours of life and a few cried tears within five days after birth, most babies were at least 30 days old, or older, before their crying produced excess tears.

Where Are Isolationists?

By John Chamberlain

CHICAGO — If it comes to more than an occasional tit for tat response to Communist aggression in Southeast Asia, it is a sure bet that the city of Chicago, once the stronghold of the America First movement, won't be taking any appeasement line. This is not only apparent in the local news editorials, it is also evident in the conversation of people who, back in 1939, wanted very much to stay out of World War II.

Some commentators have jumped to the conclusion that this represents just another instance of the human animal's sublime indifference to logical consistency. They think it odd that the isolationists of 1939 should be willing to do anything in 1965 that it takes to keep the Russians and the Red Chinese in their place. How can it be, so it is asked, that the old followers of Bob Taft and Herbert Hoover should suddenly be willing to risk war in far places that are even less known to westerners than Czechoslovakia was to Britain's Neville Chamberlain?

The answer to this is that only a surface inconsistency is involved in the changing contemporary attitudes toward possible war. When Bob Taft and Herbert Hoover and Chicago's General Robert Wood were opposing our involvement in World War II, they were animated by something far more practical than mere sentimental pacifism. Their thinking was primarily strategic. What they foresaw in Europe was the possibility of a long and debilitating stalemate on the Russo-German front, with Communists and Nazis bleeding each other into impotence. They could have been wrong about such a possibility, but the idea of "letting the rats fight it out", was certainly not appeasement.

It is still possible, in 1965, to hope that the modern "rats" — the Soviet Communists and the Red Chinese — can somehow be thrown at each other's throats. But when Khrushchev, who was antipathetic to world Chinese pretensions to world Communist leadership, was sent into ostracism, this hope became less tenable. If only for the sake of self-preservation, the two great centers of the Red World must be compelled to support each other in a pinch.

What is apparent to the student of Soviet Russian history is that no leader has long survived an advocacy of a conciliatory line toward the West. A Soviet defector of my acquaintance, who must preserve his anonymity for fear of being shot, had a close-up view of the events that led to the overthrow of Malenkov as Stalin's successor.

Malenkov had championed the cause of the Russian consumer, but this, so my defector friend says, was not the cause of his fall. What really turned Khrushchev and others against Malenkov was the latter's proposal to settle the East German question on a compromise basis.

This was considered a form of surrender — and Malenkov paid the penalty by being banished to run that power station somewhere in Siberia. When Khrushchev finally grabbed the top spot in Russia, he, too, became the champion of the consumer. But he also sent Soviet tanks into Hungary. There was no question of "surrender" until Khrushchev made the mistake of preaching "goulash diplomacy" vis-a-vis the West and, simultaneously, began to provoke a Soviet-Red Chinese split. It was not long before he met with Malenkov's fate.

So the possibility that the Soviets and the Red Chinese can be pushed into mutually suicidal conflict recedes. And the former "isolationists", who mistake hard-headedness about strategic matters, see clearly that the West must put its trust in its own strength if Communism is to be kept at bay. This is what underlies the apparently contradictory shift in the attitude of important Chicagoans toward our involvement in faraway places like South Vietnam. If old Colonel Robert McCormick were still around, it would be interesting to know just what he thought of it all.

If Chicago has switched sides on the war issue, the old "liberals" who were so hot to get us into war in 1939 have switched, too. But their pacifism has an Eastern Seaboard, not a Middle Western, locus. Old Colonel McCormick would certainly have found this food for ironical reflection. But there is no deep inconsistency in the changing "liberal" attitude any more than there is an inconsistency among the old "isolationists". It's still a confrontation of hard-heads and soft-heads. And Chicago is still full of hard-headed thinkers.

The Business World

NEW YORK (AP)—Weather and labor are this month's nerve-rackers at home just as Viet Nam air raids are abroad. If all goes well in all three trouble spots, American business expects to have its biggest month yet.

Auto and steel production schedules are aimed at record highs in March. Snowstorms cut output in both industries last week. In treacherous March this could happen again.

American diplomacy in Southeast Asia.

But March may also spell out for some industries at home the future course of orders for defense — the mixture of government spending among defense and peacetime objectives.

The financial relations of the United States with some of its West European allies also seem likely to come into sharper focus before this month is over. Other nations could follow France in turning more of their dollar reserves in for U.S. Treasury gold.

The U.S. international payments deficit bothers both sides of the Atlantic. Western Europe increasingly complains about the influx of private American investments. Many officials there fear that Americans will be taking over too much of their local economies.

President Johnson also is urging American corporations and banks to slow down the outflow of American investment dollars. His aim is to cut the international deficit by keeping dollars at home.

Speaking of YOUR HEALTH... By LESTER L. COLEMAN, M.D.

How do antibiotics kill germs, bacteria and viruses to cure infection?

Antibiotics do not kill, or even affect viruses. It is for this reason that antibiotics cannot cure the common cold, which is caused by a virus. Physicians sometimes give antibiotics for a cold, gripe or influenza in order to prevent complications, rather than as a cure.

Antibiotics are effective against bacteria or germs in one of two ways. Those that destroy or kill germs are called bactericidal (to kill). Other antibiotics control and limit the growth of bacteria. These are called bacteriostatic (to stand still).

Not all antibiotics can kill or control all germs. Some antibiotics have a great destructive power over certain specific germs, but may have little or no effect on other germs.

Sometimes as many as ten different antibiotics are tested on cultures of disease-forming bacteria to find the drug that is most effective against a particular germ.

Just as the body sometimes develops an immunity to certain germs, germs themselves can sometimes develop immunity to a drug. In the past 20 years, the era of the antibiotic drugs, some germs have built

their own defenses against antibiotics. Certain strains of germs, like the staphylococcus ("staph") have become hardy and resistant to their enemy, the antibiotic.

This is why scientific researchers constantly seek to develop new drugs and synthetic drugs to combat the defenses that germs have built up against old drugs.

How are tears produced and why do most newborn children cry without any tears?

Legislative Pace Speeded, Solons OK Six Ordinances

City councilmen moved into legislative high gear last night as they approved six ordinances submitted for introduction.

One of the measures enacted authorized the transfer of \$15,000 from the sewer rental fund for the purpose of modernizing facilities at the local Sewage plant. Approval was granted after a similar ordinance held to first reading last month was defeated due to wording.

The original ordinance was

listed as "appropriation of \$15,000." The new measure was changed to read "transfer of \$15,000."

Two ordinances authorized the City Board of Public Utilities to establish plans for the purchase of equipment for improvements at the disposal plant.

ONE MEASURE granted permission to advertise for bids concerning the purchase of a bulk lime storage bin and chemical feeder equipment. The other authorized the board to enter into a contract without public advertising.

The latter concerns the operating mechanism at the Disposal plant which is listed in urgent need of repair. According to utilities head Ervin Leist, the parts needed are available only from the Rex Chainbelt firm of Milwaukee, Wis. The cost was set at \$3,797.36.

Other legislation enacted by the solons included:

Authorization for the service director to advertise for bids for furnishing certain materials to the city for fiscal year 1965. The materials pertain to aggregates needed for yearly street construction and repair.

Permission for the Knollwood Development Co. to withdraw a corporate bond in the amount of \$8,500 which had been established by the firm to guarantee installation of certain facilities in Section 3-B of the Garden City Subdivision. A service department letter indicated all obligations had been met by the building firm.

APPROPRIATION of \$54.90 for payment of property damages suffered by Vernon Espinoza during the flushing of sewers in the vicinity of his residence at 475 Half Ave.

In other business, Councilman David Crawford inquired about the amended bicycle ordinance that was presented last month for consideration. Police Chief Robert Temple indicated a measure with additional provisions should be ready for council action at the next meeting.

Solons Keith Wagner lifted the lid on a problem that has existed here for several years. It pertains to alleged complaints that unsanitary conditions are

Never Too Old LANSING (AP) — The State Conservation Department says Arthur Sprague of Harrison, who took out his license in time to go ice fishing before his 97th birthday, is Michigan's oldest active licensed fisherman.

prevalent along the rear boundaries of properties on the north side of east Water St.

Wagner said complaints forwarded to him contend that rubbish is being tossed over an embankment that runs parallel with Hargus Creek. He urged steps be taken to correct the situation.

Double Feature

TYLER, Tex. (AP) — State Patrolman Bobby Miller answered a call at 6:45 p. m. one day recently. He found a small sports car turned over along-side a country road with the driver, Don Brown, 21, of the Whitehouse community, unhurt. Brown said he had swerved the diminutive vehicle to miss hitting a car and turned over. The patrolman drove Brown home. At 7:50 o'clock the same night, Miller got another call and found a compact car upside down on another rural road. Beside it was Brown, who said he had flipped his sisters' car to avoid an accident. Brown, unhurt a second time, was again taken home by the patrolman.

Teen-Agers Give Opinions on Driver Laws

COLUMBUS, Ohio (AP) — A legislative committee considering stricter laws on teen-agers drivers went to the heart of the problem Tuesday night and talked to teen-agers.

Two students of Columbus' Grandview High School appeared before the House Highways Committee and said they were there of their own accord to express views on the proposed legislation.

Rep. William C. Games, R-Adams, committee chairman, welcomed 16-year-old Byron Williams and Janet Johnson, 15, both of whom opposed increasing the minimum age from 16 to 17 at the same time favored

stricter enforcement of traffic laws. Williams said he is against increasing the minimum age from 16 "because we do not feel you can legislate against a particular age group."

Miss Johnson came armed with a stack of statistics, including figures from the Columbus Police Department showing that in a one-year period in Columbus, 18-year-olds were involved in more than 2,400 accidents while 16 and 17-year-olds had only about 1,400.

Several adult witnesses, appeared, including Cincinnati Municipal Court Judge Robert Wood, who said he favors a bill

by Rep. Harry McIlwain, D-Hamilton.

McIlwain's bill would boost the minimum age to 18. Judge Wood said he hoped the committee will recommend passage but added that if it doesn't, "then I ask you, please give municipal courts jurisdiction to handle juvenile traffic cases."

Will Watchdog Work?

BAY CITY, Mich. (AP) — Burglars stole most of Douglas Keith's garden tools from his garage.

They also stole the big German shepherd Keith had left as a watchdog.

Rare \$5 Bill Is Discovered

Value Estimated
At about \$50,000

MIDDLETOWN, Ohio (AP) — As the result of two strokes of luck, Pearley Stephens Jr. thinks he may have something worth \$50,000 in his safety deposit box.

The something is a slightly worn \$5 bill with the seal and serial number printed upside down. Stephens, of nearby Franklin, says he has been told it may be worth "\$50,000 or more" to some rich collector.

He hopes to use the money to help his eight children get a college education.

"I think I broke a \$20 bill and got back in change a couple of fives and some ones," Stephens recalled Tuesday night.

That happened in Columbus, "3 1/2 or 4 years ago" while he was working for the Montgomery Ward store in that city. He came to Middletown in August, 1963, to run the Montgomery Ward Store's shoe department.

"Do you know how to play dollar-bill poker?" Well, I had played it for coffee and lost. I put the bill down on the counter, but my fellow employee said, 'Don't break a five, I've got a couple of dimes'.

"That's when I looked at the serial number and saw it was upside down."

Stephens said his first assumption was that the bill was counterfeit. He notified authorities in Columbus. A U.S. Treasury Department agent and a man from the FBI inspected the bill.

They found the bill genuine, and asked Stephens not to spend it.

Since then Stephens has had a few money collectors take a look at his \$5 bill.

None of them would name a price. But all of them wanted it," he said.

Monrovia GC Convenes

Eighteen members answered roll call by naming a native bird when members of the Monrovia Garden Club met Monday evening in the home of Mrs. Lloyd Neff. Mrs. Allen Follrod was welcomed as a new member and Miss Betty Ann Grabill was a guest.

Mrs. Charles Fleming, president, presided and Mrs. Francis Furniss gave the devotionals using as her theme, "The Praying Hands" followed by prayer. Mrs. Clark McCafferty

Mrs. Stout Presides at Guild Session

Mrs. Orren Stout, chairman, presided when members of Berger Hospital Guild No. 28 met in her home, 882 Lincoln Drive.

The following charter members were named: Mrs. L. E. Foreman, Mrs. C. C. McClure, Mrs. Channing Vleebome, Mrs. Guy Heffner and Mrs. Fred Duncan. Other members are Mrs. Hal Dickinson, Mrs. Ethel Palsgrove, Mrs. C. R. Barnhart, Mrs. Howard Smith, Mrs. John Downs, Mrs. John Wolford, Mrs. Elsie Chester, Mrs. Vaughn Hill, Mrs. Ned Harden and Mrs. Clarence Ater.

A thank you letter was read from Miss Ellen Leist, superintendent of Berger Hospital, for several surgical instruments, the guild's project for the year. Mrs. Hal Dickinson, treasurer, reported and a Valentine greeting was read from Mrs. E. J. Stucker of Ft. Mitchell, Ky., a former member.

A dessert course was served by the hostess.

The next meeting will be held in the home of Mrs. John Downs, 1065 Georgia Road.

KAISER KIN—Prince Nicholas of Prussia, 18, whose great grandfather was the Kaiser Wilhelm who ruled Germany in World War I, leaps from a tank during training in the British army. He is "Trooper 24041006 Nicholas Von Preussen." His father, Prince Frederick, left Nazi Hitler's Germany in 1937 to live in England. Prince Nicholas plans to enter officer cadet school later. (Cablephoto)

AIR LINE TO BUY 24 SHORT-RANGE DC9s—Following the maiden flight (above) of the new Douglas DC9 short-haul, twin-jet passenger airliner at Long Beach, Calif., Eastern Air Lines announced it will purchase 24 of the craft for \$84 million. The DC9 is capable of carrying 60 passengers at a top speed of 560 miles an hour at an altitude of 30,000 feet.

Pre-Fabricated Fireplaces Are Convenient

By ELEANOR ROSS

On any chilly evening snowy afternoon or dreary wet morning, the hearth is conceded to be the heart of the home.

For those who have done without this cozy feature in their homes, here's news: You can now have a steel fireplace with a minimum of expense, effort or mess.

These new, pre-fabricated durable steel fireplaces cost far less than conventional types and can be installed in a matter of hours rather than days — even by do-it-yourselfers.

Available in a variety of sizes, designs, colors and coatings, the fireplace can be had in stainless steel, colorful porcelain enamel — on steel, black patent sheet steel, or factory prime coated heavy gauge sheet steel that you can color as you wish.

Since these units are light weight and require no footings or cumbersome masonry chimneys, they can be put on any wall in the house. They can also be hung from the ceiling, set on a platform or they can stand free on their own legs.

One steel fireplace was designed as part of a room divider, extending with shelves from floor to ceiling.

Another combination fireplace and barbecue was made to sit atop cabinets or bookcases or even set in a sash window like an air conditioner.

Steel fireplaces have a number of advantages over the average brick or stone hearth.

This is because safety, quality and performance are all factory designed and controlled; whereas the conventional fireplace has characteristics as variable as the masons who make them and the homes in which they are constructed.

Take the consideration of draft alone: Steel fireplaces use an approved type of standard flue that assures excellent draft with none of the stubborn stunts of many a masonry chimney.

And, these flues are as versatile as the fireplaces themselves. Some run straight up through the ceiling or up a wall and out through the roof. Others go through the wall, then continue up the exterior wall of the house.

Exposed interior sections can be attractively finished. And all kinds of caps and enclosures are available for the extension above the roof — from a simple rain cover to simulated "brick" chimneys.

Flues usually have two or more pipes, one inserted inside the other and referred to as inner and outer — liners. The space between these can be filled with fire-proof insulation. The inner — liner may be stainless or aluminum-coated steel and the outer one may be zinc-coated steel. One of the new jobs we mentioned can put an end to the often-heard expression:

"This lovely room would be just perfect if it only had a fireplace."

WSWS Chairmen Submit Reports

Various committee chairmen reported when the St. Paul WSWS met in the home of Mrs. Arthur Leist.

Devotions were given by Mrs. Maurice Bailey assisted by Mrs. Emmett Hinton and Mrs. Ralph DeLong. Final plans were made for the World Day of Prayer to be held Friday at St. Paul.

Mrs. D. A. Marshall and Miss Nellie Bolender presented the program.

Refreshments were served to 18 members by the hostess, assisted by Mrs. Nelson Stevens.

Dear Abby: Parental Preferences!

By Abigail Van Buren

DEAR ABBY: Our daughter invited a young man she had been dating at college to come home with her for the week-end. We approved the invitation. They are both 21. She asked for her father's car so they could go to a movie. Nothing was said about what time they would return. Long ago we set a time limit of 1 A.M., so we assumed they'd be in by that time. They came in at 5:30 A.M.! They said they'd spend most of the time in an all-night eating place. My husband was furious and had words with them right then and there. Our daughter cried and, of course, the rest of the visit was strained. I told my husband I thought he should have talked to our daughter in private and said nothing to the young man. What would you have done?

UPSET MOTHER
DEAR MOTHER: Being a mother, I'd probably have done exactly as you did and told my husband he should have talked to our daughter in private and said nothing to the young man. But my husband, I am sure, would have done exactly as your husband did and thrown the book at both of them right then and there. And I think he'd be justified.

DEAR ABBY: We go out with a group of middle-aged married couples. One couple has an

18-year-old daughter whom they take everywhere they go, even to the homes of their friends when they are invited there for parties. We have all been very annoyed about this, but we've been friends for so many years we don't know quite how to tell this couple that they should leave their daughter at home. Please give us a clue as to how we can change this situation.

ANNOYED GROUP
DEAR GROUP: One of you should wise up the mother to leave the girl home now and then. If it is done in a kindly and friendly manner, she should not be offended. An 18-year-old girl should be making a social life of her own. But she and her parents may need your understanding help, too.

DEAR ABBY: Every time I ask my husband to repeat something, he gets mad and asks me why I don't get myself a hearing aid. There is nothing wrong with my hearing. It's the way my husband talks. He mumbles! It's gotten so that I'm afraid to ask him to repeat anything for fear he'll take my head off. How can I let him know that it is his mumbling and not my hearing that's at fault without starting a civil war?

MUMBLER'S WIFE
DEAR WIFE: Make a deal with him. Tell him YOU'LL have your hearing tested if HE will consent to see a speech therapist. Trust the experts to give you the facts.

DEAR ABBY: In reference to the night worker who was constantly awakened by salesmen knocking on the door in spite of a sign which said, "PLEASE DO NOT DISTURB, DAY SLEEPER."

Ask the pest for his home telephone number and tell him you will call him on your lunch hour. This is usually about 3:30 in the morning. I doubt if you will be disturbed by the same salesman twice. Respectfully submitted by, ARNIE

Most Judges Urge Change In Ohio Law

COLUMBUS, Ohio (AP) — Most Ohio judges favor proposals now before the General Assembly to modernize the state's court system.

That is the finding of a recent survey conducted by the Ohio Judicial Conference, a group made up of Ohio judges. The findings of the survey were announced Tuesday by the Ohio State Bar Association's Committee for Modern Courts in Ohio. Bar Association President Roger Smith predicted victory for those sponsoring the modern courts proposal.

"This judicial support by our state's judiciary is bound to have a positive effect upon the legislators who are now considering the modern courts resolution," Smith said.

If approved by the Ohio Legislature, the resolution will place next November. One point in the proposal would give the Ohio Supreme Court administrative authority over all state and county courts. Another would provide for Supreme Court seats to be filled by gubernatorial appointment instead of election.

USE THE CLASSIFIEDS

TODAY In History

BY THE ASSOCIATED PRESS

Today is Wednesday, March 3, the 62nd day of 1965. There are 303 days left in the year. Today's highlight in history: On this date in 1847, the first postage stamps for national circulation were authorized by Congress.

On this date: In 1845, Florida was admitted to the Union.

In 1847, the inventor of the telephone, Alexander Graham Bell, was born.

In 1849, the Department of the Interior was established by Congress.

In 1931, by an act of Congress, the Star Spangled Banner became the national anthem.

In 1945, the U.S. 9th and Canadian 1st armies joined fronts as Nazi forces were in full retreat all along the Rhine.

Ten years ago—Secretary of State John Foster Dulles was touring Burma, Indochina, Formosa and the Philippines.

Five years ago—At least 63 persons were killed in a fire which destroyed a chemical plant in Pusan, Korea.

One year ago — France announced plans to support Red China's application for U.N. membership.

Widow, 17, Knew Death Was Coming

CHESTERFIELD, England (AP) — Widowed at the age of 17, Brenda Meenham said today, "I knew this was bound to happen, but I have no regrets."

Brenda met Owen Needham, 24, last October. They fell in love.

Weeks later, Owen went into a hospital. The doctors found he had an incurable disease. They told Brenda, but not Owen.

Soon he became paralyzed from the waist down. Still convinced that one day he would recover, he asked Brenda to marry him. She agreed.

Two weeks ago they were married in the hospital.

Last Friday, when Owen's life was fast slipping away, the doctors told him he could go home with Brenda.

On Sunday night he died, with his teen-age wife at his bedside.

"I was so happy to be with him until the end," said Brenda. "I hope and believe I made him happy. Owen never did realize how ill he was. It was best this way."

PAINESVILLE School Hit by Fire in Lab

PAINESVILLE, Ohio (AP) — Classes were to resume today at Painesville High School following a \$20,000 fire in a biology laboratory that forced some 800 pupils to evacuate the school in Painesville Township, just south of here.

Fire broke out shortly before noon Tuesday in a small room off the main laboratory on the second floor when an overheated tray of paraffin caught fire on a stove. The flames spread to other paraffin trays and wall cupboards.

Circleville, Ohio

Current, Future Projects Aired

Chamber Heads Hear Reports

Committee reports headed the agenda yesterday when board members of the Circleville Area Chamber of Commerce met for a regular monthly meeting.

The reports centered on projects now under way and several planned for the near future. President Jack Clifton termed these committee functions as a prime factor in keeping the Chamber "on the move."

Alden Bray, chairman of the Education Committee, reported that 275 names of business and professional personnel have been turned over so far to city and county schools in preparation for Education-Business-Industry Day. The event is set for Mar. 17.

The schools in turn will mail invitations to those planning to participate. The special F-B-I Day will amount to business and professional people visiting community schools for what is designed to be an interesting tour.

BRAY pointed out that invitations are still open for those who have not yet been added to the list. His committee has expressed hope that more than 300 will take part in the visitations.

Chairman Richard Penn reported that his City-County Planning Committee has extended its scope beyond regional planning efforts. He said study is being directed towards a local building code being sponsored by the Pickaway County Council.

tractors Assn., aspects of a city income tax and the appearance and cleanliness of local streets.

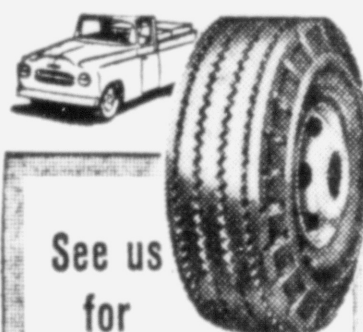

G. Ninde Lawson of the Congressional Action Committee presented a rundown on last month's special meeting with John Senn of the Ohio Chamber of Commerce. He reminded that he, State Representative Roy Huffer Jr. and Eugene (Doc) Owens will represent Circleville at the Third Biennial Legislative Conference today and Thursday in Columbus.

Dr. David Goldschmidt reported that his Membership panel is making progress toward reaching the Chamber's goal of 200 members. He said special attention is being devoted to outlying areas.

Forrest Thomerson of the Retail Merchants Committee reported a favorable outlook on the decision by most local stores to stay open on Wednesday afternoons. He said all but about eight firms are currently observing the new schedule.

President Clifton announced that a committee to direct a program for "Paint-Up, Clean-Up Week" here May 2-9 will be named within the next few days.

According to Mrs. E. R. Bennett, executive secretary, eight new Chamber members were added during February. They are Ayres Brothers Electronics of 120 S. Court St., Allen W. Wood of Tectonics Construction Co. (Logan Elm Village), T. K. Brunner & Sons Jewelers of 119 W. Main St., John H. Dunlap of the Dunlap Co. in Williamsport, Wolfe and West Contractors of Amanda, William Dixon of Pickaway Plumbing and Heating, Lawrence Black of King's Department Store and William Clifton of Dynamic Sales, Inc.

Ashville Man Injured in 2-Car Mishap

Mitchell Lemaster, Route 2, Ashville, was treated at Berger Hospital yesterday for minor injuries sustained in a two-car accident on County Road 511, north of Circleville.

Pickaway County Deputy Sheriff George Linder said Lemaster turned left into the path of a car driven by Paul Keller, Route 1, Stoutsville.

Both cars were heavily damaged by the impact. The accident is still under investigation.

2,200-POUND FENDER—Crewmen haul back to upend a new 2,200-pound ship fender at Norfolk, Va. Then it is hung over the side between their tender, the Orion, and a Polaris submarine to keep them from bumping. Goodrich, the maker, believes these are the largest rubber cushions built.

Views on Television — Radio

By CYNTHIA LOWRY
AP Television-Radio Writer

NEW YORK (AP) — James T. Aubrey Jr. quit CBS network earlier this week in the most publicized television walk-out since Jack Paar stormed off an NBC stage.

Speculation by insiders about the sudden unexplained departure of the television network's president concentrated immediately on CBS' loss of leadership in the national Nielsen ratings this season after two seasons well out front.

The ratings are projected statistics on the purported viewing habits in more than 50 million American homes gathered by electronic gadgets attached to the sets in about 1,200 homes throughout the country. These homes are chosen to represent as closely as possible the makeup of the entire population according to the most recent federal census — age, sex, family composition, income, education, geographical composition and many other factors.

From records of what programs these families are tuned to, the A.C. Nielsen Research organization estimates the total audiences for various shows. The result is the yardstick by which networks assess the popularity of their programs. It is also widely used by sponsors and their advertising agencies to obtain some idea of the number of people exposed to sales messages on which some companies spend millions of dollars a year.

Critics complain that ratings fail to reflect the quality of programs or to show the composition of audiences.

In spite of this, the national Nielsen is commercial television's most important measurement tool. With few exceptions, programs with high ratings survive; those with low ratings succumb. The network that

leads in the Nielsen's glows happily; the also-rans fret.

Network television nervously lives by the numbers, and occasionally someone or some show dies professionally by them. In a furiously competitive business governed by fickle public taste and involving millions of dollars, there is neither time for inclination to try riding out a bad storm.

Mass Teacher Dropout Seen

Clermont District Shuns Levy Again

AMELIA, Ohio (AP) — Officials in West Clermont School District fear a mass departure of teachers this spring as the result of another defeat of a 5.5 mill levy.

The district's voters turned down the levy Tuesday for the third time.

The vote against the measure was 3,151 to 2,667. It carried in only nine of the district's 37 precincts—all of them in Union Township, where Glen Este High School is located.

Maurice Lenz, executive head of the district, said the school board would have no immediate comment on the stunning defeat. He had earlier expressed fears that many teachers might leave the district.

Forty-five teachers left at the end of the 1963-64 school year, largely because of low salaries.

High school students have been taking care of their own transportation since Jan. 18 and extracurricular activities in the district's schools have been cut down. School buses have been picking up junior high school student only along main roads.

"The district can borrow money, but there is a limit to that," Lenz said after the unofficial vote count was completed last night.

"Unfortunately it is the children who will be hurt if the schools are forced to close."

The next time the issue can be submitted to voters under Ohio law is in November.

Lenz had said prior to the election that the district's starting salaries for teachers with a bachelor's degree are \$247 lower than those in 44 other Southwestern Ohio school districts.

Ohio Idle Pay Claims Reported on Increase

COLUMBUS, Ohio (AP) — Both new and continuing claims for unemployment benefits showed declines for the week ended Feb. 27, preliminary reports issued by the Ohio Bureau of Unemployment Compensation showed today.

New claims for the period reached 10,635 compared to 11,948 for the week ended Feb. 20. Continuing claims totaled 79,300 compared to 83,431 for the previous week.

Fire Equipment Measure Okayed; Report Accepted

Preliminary legislation leading to the purchase of a new aerial ladder truck and other fire fighting equipment was

adopted last night by City Council.

A measure requesting the city's fiscal officer to furnish a certificate of maximum maturity of notes was one of two resolutions approved by the council. Council has contemplated the issuance of \$52,000 in notes for the purchases.

According to legal advice, the resolution is one of the procedural steps required in making money available for the new fire apparatus. The purchase was authorized by City Council following the passage of a levy here in November.

Four bids on a new aerial ladder - pumper truck have been received and opened here, with the Seagrave firm of Clintonville, Wis., submitting the low proposal. However, no contract has been signed.

ACCORDING to city officials, the truck contract will be negotiated after the money has been properly made available. Indications are the next step will be for council to authorize issuance of notes in the amount of \$52,000.

A second resolution accepted a report submitted by an equalizing board following a concentrated study of tentative assessments in the proposed Circleville North Storm Sewer System. The legislation was adopted on a 6-1 vote, with Solon Boyd Horn's refusal to vote counted as a negative nod.

The equalizing board's report listed two exceptions. They concern assessments along Sunshine St. and the property of Frank E. Hoffman.

Board members noted that they felt assessments along Sunshine should be reduced by 35 per cent, with the city assuming this portion of the cost. This reduction would amount to \$1,093.52.

The Hoffman exception, based on the belief that half of the property should have been assessed in the North Sewer System and half in the Northridge District, amounted to a reduction of \$112.29. The present tentative assessment is \$508.61.

Solon Frank Barnhill moved that City Council forward a letter of commendation to members of the equalization board for its lengthy and detailed study on the controversial assessments. The suggestion was approved. The board consists of Edgar M. Webb, Winship Story and Robert Wilson.

The equalizing report listed property owners as of Nov. 4, 1964 and showed changes recommended by the board.

How Weather Looks Today

OHIO FIVE-DAY FORECAST

Temperatures will average 4 to 7 degrees below normal. Representative normal high and low temperatures are: Cleveland 40-24, Columbus 45-26, Cincinnati 49-30. Turning a little colder Thursday and Friday and then well below normal temperatures through Monday night. Precipitation will average one half inch or more melted. Rather frequent periods of rain through Friday, probably changing to snow Saturday. Snow likely early next week.

labor practices —Include blood type, insulin requirements, and photographs on all driver licenses.

—Eliminate relative liability for bills of mental patients.

—Increase the terms of city and village mayors from two to four years.

10 Textbooks Used by School

But Value Listed At \$300,000 Total

BELOIT, Kan. (AP) — Imagine a classroom with only 10 "textbooks": some are used, some borrowed or rented, and if purchased new they would cost nearly \$300,000.

They are titled variously: bulldozers, earth scrapers, cranes, draglines, loaders and backhoes.

These "textbooks" and the classroom instructor, Jim Clawson, are part of an unusual education project started last fall on the north central plains of Kansas for the non-college student or the college dropout.

The North Central Kansas Area Vocational - Technical School is supported by a two-mill levy in seven principally rural school districts and eight non-school districts. Beloit voters also approved a \$50,000 bond to provide some equipment.

Other courses at the school include auto mechanics, welding, clerical and secretarial training, and agriculture-business.

Ron Wilson, director of the school, said the program is designed to develop skills that will enable young people to compete with those who have advanced formal education.

He said the heavy equipment department is "our most exotic and glamorous." Only two other public schools offer such courses: Texas AM College and Minnesota.

The six hours a day, five days a week course of nine months duration is almost guaranteed to produce a job for the graduate.

Wilson said "one company even came here and said it would take every man we can turn out in five years."

There are no fees for students 19 years of age and under from participating districts. Those 19 to 22 are charged \$25 and those over 22 pay \$100 for the nine-month course.

Some equipment has been purchased from government surplus which "provides us the opportunity to teach the students about repair and maintenance," Wilson said.

Clawson, who farmed near Randall, Kan., before he became a professional heavy equipment operator, launched the course by having the students level 20 acres the school had purchased at the western edge of Beloit.

"We want to make taxpayers instead of tax users," Wilson said. "Our philosophy is that a man with a salable skill will seldom darken the door of either the local welfare or law enforcement agencies."

Teacher Suspension Rule Is Told to Board

CLEVELAND (AP) — Donald Freeman, who was disciplined by school authorities for writing an article for a Black Nationalist magazine, cannot be suspended until a legal bill of particulars has been drawn up, the school board was told Tuesday. The board voted to approve the action of Paul W. Briggs, superintendent, who removed Freeman from classroom teaching Monday. Freeman remains on the school payroll.

LBJ Policy Brings Signs of Red Caution

By WILLIAM L. RYAN
AP Special Correspondent

Recent developments suggest that the Johnson administration's policy toward the Viet Nam war may have generated confusion in world Communist ranks and among anti-American elements in Asia.

Perhaps the Communists and rabid anti-Americans had been searching for signs of weakness in Washington and indications of backing away from danger. Instead, they see a possibility of measured extension of the war from South Viet Nam to the Communist north.

There are signs of cautious soul-searching in that portion of the Red World which is wary of Red China's blueprint for aggressive Communist expansion by force of arms. There are signs, too, of frightened second thoughts among those in Asia who hitched their wagons to the anti-American star.

The calculated risk of U.S. policy is more or less obvious. But the avowed American intention to pin the blame where Washington says it belongs — on the Hanoi and Peking regimes — may have seriously weakened Peking's argument that the United States is a paper tiger. The tiger is ready to bite. U.S. policy was carefully smoothed out in the past few days

while Moscow was preparing for an international Communist meeting — now an obvious embarrassment to the Kremlin. The administration's white paper on Viet Nam also coincided with preparations for a gathering of Communist, leftist and anti-American elements in Cambodia.

The Kremlin already had acted like an elephant trying to walk on eggs with regard to Southeast Asia. It had been accusing Peking of too dangerously belligerent a posture, of being willing to see nuclear war for

the sake of advancing Red revolutions, of embracing the philosophy that revolution must rely on guns.

Communist leaders of the U.S.S.R. and from 18 other nations — minus the Chinese — are gathered in Moscow with little to talk about, little to do. Moscow and its followers seem to hope they won't have to do anything. They averted a showdown on the Chinese issue by canceling plans for a world meeting but probably accomplished little.

Peking propaganda reflects suspicion that Moscow cannot be trusted to shun an accommodation with Washington to avert a nuclear war danger.

Soviet and European Communists probably do not want to provoke the Chinese into actions intended to force the Kremlin's hand, hence the caution at the Moscow meeting.

The U.S. stance may have had an effect on those in Southeast Asia who beat heavily on the Communist horse. Somewhat curious are the activities of Cambodia's Prince Sihanouk, who had loudly voiced his abhorrence of Americans.

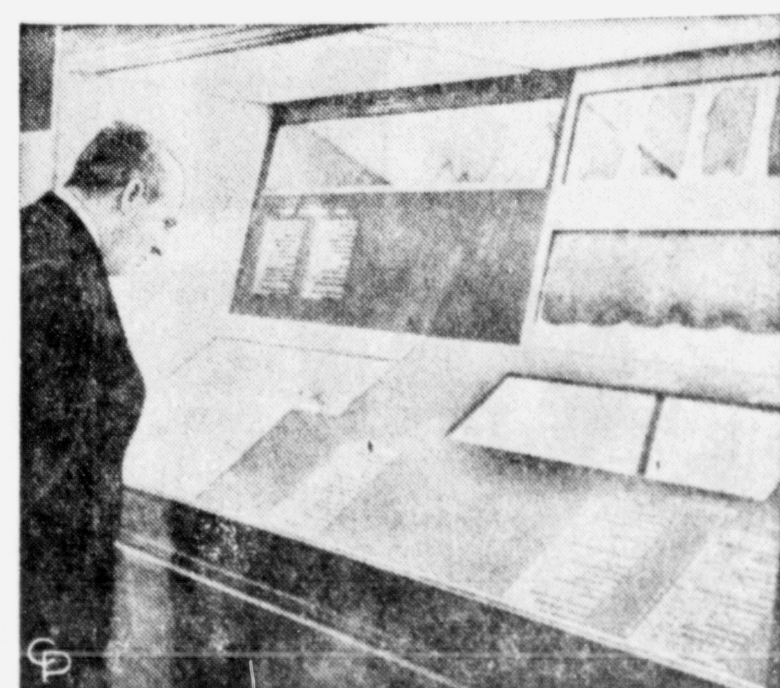

Evidently to the annoyance of the Communists, Sihanouk, hosting a "Conference of Indo-Chinese Peoples" in Cambodia urged withdrawal of both Communists and Americans from

South Viet Nam and supervision by an impartial commission.

The Communists oppose this. They say they never interfered in South Viet Nam. Sihanouk irritates them the more by saying if they did not interfere, they should have no objection to the formula.

This subtle change of attitude is unlikely to please the Chinese. There is a trace in it of a bow toward the Americans, as if Sihanouk suddenly had a goodly dose of fright about what might happen in Indochina and Southeast Asia.

APR 1965

The World Today

WASHINGTON (AP) — Dean Burch, retiring chairman of the Republican National Committee, has fired a parting shot with recommendations for improving his party's image and explanations for its loss of the 1964 election.

He spread the blame for the loss generously:

The memory of President John F. Kennedy; the way President Johnson used his presidential power; criticism of Sen. Barry Goldwater by Republicans; loss of the Negro vote; big business support of Johnson; and a few newspaper "pundits."

He never once conceded that perhaps the voters themselves, and on their own, decided they wanted no part of Goldwater after listening to him and examining what he stood for.

Burch, in a 21-page review of the past and survey of the future, concentrated almost entirely on suggesting how the Republicans could set up machinery to regain public confidence.

But, while he didn't offer pro-

grams or suggest new positions for the party to recapture that confidence, he did go into detail in telling Republicans various fields and problems in which they can criticize Johnson.

The closest he came to proposing a fresh Republican role was to restate Goldwater positions which, he said, were Republican positions:

"The government is too big; it has too much power; it spends too much on welfare programs; there are too many restrictions on business; and 'we need a firmer stand against communism everywhere in the world.'"

Burch, handpicked last year by Goldwater as GOP chairman, has not always been a good prophet, as he showed election night when, with Johnson far ahead, he declared hopefully the picture would brighten as the sun moved west.

After the election, when Republicans made it clear they didn't want him running their committee any more, Burch agreed to step out next month in favor of Ray Bliss of Ohio.

It was to Bliss that Burch directed his recommendations in

By James Marlow

a document widely distributed late Tuesday. He admitted the party had been badly beaten in 1964. To get it back on its feet, he proposed:

Year-round campaigning; intensive research to provide information for party spokesmen; task forces to study problems and come up with programs; a lot of opinion research and polling; an "enormous" public relations and "propaganda" job; a staff of full-time, paid professionals to go around the country instructing Republicans in the "art of political organization."

Burch said Republicans had "lost the confidence of the American people in our ability to govern" many years before Goldwater suffered one of the worst defeats in American history.

This is how Burch saw what happened in 1964:

"We started the race impossible behind. We were never a united party." Kennedy's assassination forced Goldwater to run against the "Kennedy legacy and the Kennedy myth, plus a busy new president, massive sympathy for the whole Kennedy-Johnson Era." Johnson was a "practical political craftsman of enormous skill and ruthlessness."

He blamed Goldwater's critical fellow-Republicans with providing "all the campaign ammunition the Democrats required." He said the Eastern businessmen's support of Johnson had a damaging "psychological impact."

The only reason Burch seemed to see for the loss of the Negro vote was Goldwater's vote against the 1964 Civil Rights Act. Among other things he listed "threats and promises" as part of the instruments that went with the presidency and he said Johnson "used every one right up to the hilt."

And Burch complained about a "handful of influential" newspaper "pundits" for a "running critique barely within the bounds of responsible and objective journalism."

At the same time, apparently without feeling any inconsistency in his concern for newspaper objectivity, Burch complained that the "press corps" wasn't sufficiently interested in "the welfare of our party."

Poison Prevention Campaign Set

WASHINGTON (AP) — Every year, more than 500,000 American children swallow such things as lye, bleach, gasoline, furniture polish and too much aspirin.

Every year more children under the age of 5 die from poison than from diphtheria, polio, typhoid, measles and scarlet fever combined.

Tragedies like these have combined to spur a common effort by private and public agencies to get parents to tighten up on their household practices to keep children from poisoning themselves.

To that end, the nation is being asked by President Johnson to observe the week of March 14-20 as National Poison Prevention Week.

Johnson said in his formal proclamation: "Adults, and others responsible for child care, can reduce or eliminate these hazards by exercising greater care in the use, handling, and disposal of these potentially harmful products."

Here are the essential rules stressed by 20-odd organizations which are sponsoring the poison prevention week:

—Keep household products and medicines out of reach and out of sight of children, preferably in a locked cabinet or closet.

—Store internal medicines separately from other household products. It's too easy to make a mistake.

—Keep household products in their original containers. Cups, drinking glasses and soft-drink bottles mean food and drink to a child.

—Be sure that all products are properly labeled. Read the label before using.

—Always turn on the light when giving or taking medicine. Many containers look alike and feel alike in the dark.

—Avoid taking medications in the presence of children. Youngsters tend to imitate adults.

—Don't speak of medicine as candy.

Too Much Rain

PALERMO, Sicily (AP) — Actually it was too much water that caused the village of Gangi Sulle Madonie to go dry for almost a week.

Days of heavy rainfall caused a landslide which broke an aqueduct and cut off the village's water supply.

—Clean out your medicine cabinet regularly. Flush old medicines down the drain, rinse the container, and then discard it.

The authorities recognize that it is only natural for a child, as he matures, to explore what's around him. As he begins to walk, he is going to be able to reach into cabinets and onto shelves. As he begins to climb, he can get to things stored above the normal reach.

If he does get poison into his system, here is what is officially recommended:

First, call your physician. If you don't have one, go to the

emergency room of your hospital and take with you the container from which the product was swallowed. Often the label will give first aid instructions.

If you suspect your child has swallowed a poisonous substance, he should be made to vomit.

But do not force vomiting if the product contains a petroleum distillate, often found in some furniture polishes, some waxes and lighter fluid; likewise, vomiting should not be forced if the product is a corrosive substance such as bowl or drain cleaners. And if the child is unconscious or convulsing,

vomiting is definitely to be avoided.

The United States now has a network of more than 500 poison control centers at which information is available on the poison characteristics of various commercial products, and on the recommended treatment when those products are accidentally taken into the body. This information is for the benefit of physicians who obviously could not individually maintain such a list.

The information is fed to the network by a clearing house in the United States Public Health Service.

Bodily Beaten Banker Off 'Critical' List

COLUMBUS, Ohio (AP) — A prominent New York City banker who was severely beaten and then dumped in an alley in sub-freezing temperatures last week is no longer on the critical list.

University Hospital Tuesday reported Robert Livingston Ireland III in "satisfactory" condition.

Ireland, 44, was found suffering from exposure as well as the beating when found in the rear of an alley. Police charged Albert Johnson Jr., 35, of Columbus, with the beating.

Dirty Little Ground War Grinds On in Viet Nam

EDITOR'S NOTE — Air strikes are taking major headlines from Viet Nam these days, but the dirty little war goes on around. Here is an eyewitness story by AP photographer Horst Faas.

By Horst Faas

XUYEN MOC, South Viet Nam (AP) — "Let's get out of here," the American captain exhorted the Vietnamese battalion commander squatting in the dark jungle.

The Vietnamese major, 28, shrugged. "My orders from the task force are to stay here for the night."

Within 12 hours those orders cost two dead, 18 wounded and a Vietnamese supply helicopter lost. By the standards of the guerrilla war in Viet Nam it was, in many ways, a typical jungle action.

It began in midafternoon Sunday when the 6th Battalion of the Vietnamese army's crack airborne brigade emerged into a clearing after two days' jungle marching.

With the force were three American advisers — lanky Capt. Robert Losik of Milwaukee, Wis., a professional soldier; Air Force Lt. Buck Rennie of Wichita, Kan., a bachelor who volunteered for the dangerous job of air spotter; and S Sgt. Erich Dippel, a former German soldier who joined the American Army to get U.S. citizenship.

The battalion was one of five seeking a suspected Viet Cong headquarters area 50 miles southeast of Saigon. Another mission was to assess damage caused by jungle bombing by American B57 jets.

Early in the afternoon a battalion reached a clearing dotted with gaping bomb craters left by the air strikes. The orders came down to stay put and look around.

Radio packs were set up on a deserted road. A triangular defense perimeter was set up in the adjoining jungle.

By nightfall Losik and the Vietnamese major were in a spirited council of war. After some four hours on the scene they knew Viet Cong must be aware of the outfit. The advisers

feared a possible ambush or mortar barrage. So did the Vietnamese commander — but he had his orders.

Losik started measuring coordinates for artillery support. He radioed for smoke marking rounds and two came whistling in a reassuring 70 yards from outer foxholes.

With three men, Rennie went to the edge of the road and dug a hole, filling it with firewood and wiring a detonator at the bottom. If the Viet Cong attacked the detonator would light a bonfire so planes could see a marker.

In the darkness Vietnamese soldiers built new campfires — deadly attractions for the Viet Cong. A few played tiny transistor radios, picking up popular music from Saigon.

Through the night the soldiers slept fitfully. At dawn Losik again spoke to the Vietnamese major. He urged again "Let's get out of here."

The major took a platoon and started to scout the road area — and then it came. The first sound resembled popping champagne corks as the mortars popped up out of their tubes a few hundred yards away in the Viet Cong jungle.

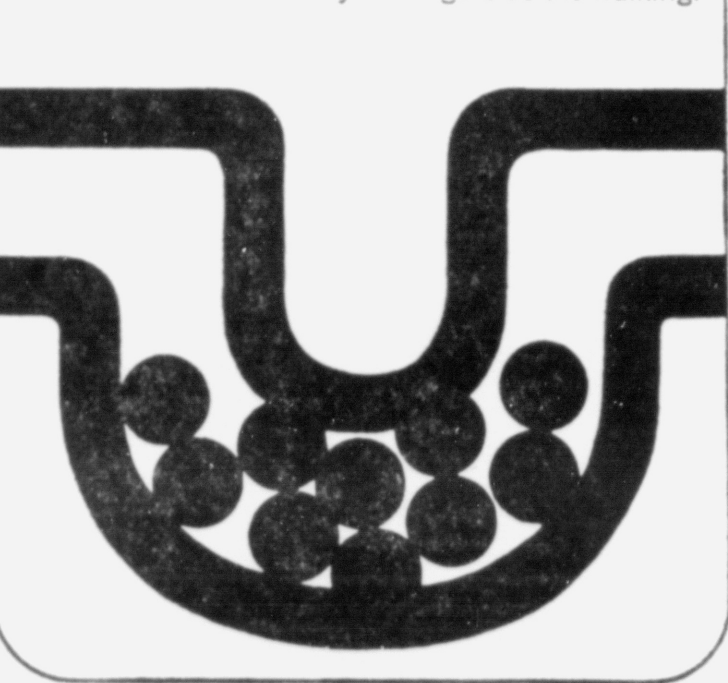

Seconds later the first explosions ripped overhead, shattering branches and raining shrapnel on the command post area.

Losik grabbed the Vietnamese commander's radio and yelled for air support. Dippel slithered to a machine-gun position. Mortars came in bursts of two and three, dropping at about 20 second intervals. Sturdy Vietnamese soldiers made hardly a sound when they were hit—only a pained and surprised grunt. One mortar fragment banged into a steel helmet like a knife banging a tin pan.

Before long the sound of American choppers filtered through the trees, mingling with the sound of bursting mortars. The helicopters began to spray the surrounding area with rockets and machine guns. Viet Cong mortars fell silent.

Finally in midafternoon, 24 hours after the battalion arrived, orders came to move on. The battalion moved through tall elephant grass, once more in search of the Viet Cong.

Medical Mirror

BRITTLE FINGERNAILS AND GELATIN

Q. Is it true that the taking of gelatin benefits brittle fingernails?

A. Claims have been made that daily doses of gelatin will overcome nail brittleness but as one Philadelphia specialist said, "This is hard to believe." One rather elaborate study showed that nail hardness, determined from nail clippings, was substantially increased after one month of gelatin "treatment." Since it takes three months for nails to grow, the nail clippings which supposedly showed increased hardness were from portions of nails produced two months prior to the administration of gelatin! It's safe to say that those who advocate this remedy have not proved its effectiveness beyond reasonable doubt.

PATERNITY

Q. Is it scientifically possible to identify the father of a child beyond any doubt whatsoever?

A. No. However, paternity tests can, in many cases, exclude the man as the father of the child. The fact that the tests fail to exclude the man is not necessarily accepted as evidence that he is the father of the child in question.

Bradley Voted Top Cage Rating

NEW YORK (AP) — Bill Bradley, Princeton's two-time All-America, was named the college basketball player of the year by The Associated Press today.

The 6-foot-5 senior from Crystal City, Mo., who has led Princeton to three straight Ivy League titles while setting all-time Ivy records galore, won by

Trace Is Lone SCO Survivor In Tournament

Miami Trace defeated Greenfield McClain, 83-68, last night in the Class AA sectional tournament at Paint Valley while Hillsboro dropped an 81-51 decision to Chillicothe.

Tom Townsend and Dan Huffman provided the Trace Panthers with a double scoring punch as they tallied 30 and 27 points respectively.

High man for the losing McClain Tigers was Ralph Nooks with 20 points.

Miami Trace is now the lone South Central Ohio League team remaining in tournament play. The Panthers play Waverly 7 p. m. tomorrow at Paint Valley.

HILLSBORO led Chillicothe, 18-14, at the end of the first quarter but trailed, 33-28, at halftime. The score going into the final quarter was 57-40 with the Cavaliers on top.

Chillicothe will play Lancaster in the second game at Paint Valley tomorrow.

Ohio Cage Conference Honors Star

WESTERVILLE, Ohio (AP)—Barry Clements, Ohio Wesleyan University's basketball star, was voted by Ohio Conference coaches today as the player to receive this season's Mike Gregory Award.

Each of the coaches nominates one player for the annual award, established in 1956 by the late Mike Gregory of Granville to be presented to the best basketball player in the 15-team Ohio Conference.

The 6-7 Clements, a native of Xenia, is the first Ohio Wesleyan player to receive the basketball award. He is the only player in Ohio Conference history to be named to the All-Conference team in four consecutive years.

Last year he was co-captain of the mythical team and this year he captained the squad since he was the only unanimous choice.

In four years at Ohio Wesleyan, he broke the conference career scoring record with 1,905 points in 94 games for an average of 20.3 points per game. He also set an Ohio Wesleyan career scoring record, most field goals by an OWU player and most field goals attempted by an OWU player.

Last year he wasn't named to the Associated Press Little All-America team.

Michian State swimmer Gary Dilley is the son of John A. Dilley, Purdue swimmer in 1947.

a whopping 116-30 margin over Cazzie Russell of Michigan in voting by 216 sports writers and broadcasters.

Bradley and Russell also were one-two in the separate balloting for the 1965 All-America, announced by The AP Tuesday. This balloting was much closer with Bradley getting 993 points on 197 firsts and four seconds. Russell tallied 964 points on 186 firsts and 17 seconds.

Five points were given for a first-team vote in the All-America voting and two points for a second-team nod, while just single votes counted in the player-of-the-year tally.

Named to the All-America first team, along with Bradley and Russell were Rick Barry, the nation's individual scoring champion from the Miami, Fla.,

Hurricanes; Gail Goodrich of UCLA's defending national champions; Fred Hetzel of Davidson and the late Wayne Estes of Utah State.

Estes was named to the All-America posthumously. He died Feb. 8 when he accidentally came in contact with a high-voltage wire.

Hetzel, who led Davidson to 23 straight victories before West Virginia upset the Wildcats in last week's Southern Conference championship tournament, was third in the player-of-the-year balloting with 12 votes.

Rounding out the top 10 were Barry with seven votes; Goodrich and Estes five each; Clyde Lee of Vanderbilt, A.W. Davis of Tennessee and Dave Staell, worth of Wichita, three each, and Skip Thoren of Illinois, two.

'Somethin' Smith Lost To Akron in NCAA Tourney

By THE ASSOCIATED PRESS

Bob (Somethin') Smith has led Akron to the Ohio Conference basketball championship but now will have to let his teammates challenge for NCAA tournament laurels without him.

Ken Wilburn, Central State's career scoring record holder, sat on the sidelines as the Marauders copped NAIA District 22 honors, but his mates are counting on him in the NAIA tourney at Kansas City.

With Smith, the high-scoring Zips repeated as OC tournament kings by whipping Otterbein's upstairs 83-71 at Columbus Tuesday night.

Meanwhile, without Wilburn who is nursing a sprained ankle, Central won its 25th game without a loss with a handy 87-61 conquest of Cedarville in the NAIA district final at Wilberforce.

The rub for the Rubber City Zips when they open in the NCAA Mid-East Regional on their home court Friday night is that Smith and a couple of top substitutes like Pete Burg are freshmen. Under NCAA rules, frosh at schools with over 750 male enrollment — which Akron has — can't compete in the postseason event.

Before worrying about opening regional opponent Steubenville, though, the Zips are savoring a tasty victory sparked by the 5-foot-9 Smith's 25 points and 6-8 Phil Turner's 21.

The Others' superb sophomore Don Carlos, was in great form with 32 points in the tourney finale. But his efforts weren't enough.

Central State moves into a 32-team field in the NAIA tourney.

McCracken Resigns as Indiana Pilot

BLOOMINGTON, Ind. (AP) — The sudden resignation of veteran basketball coach Branch McCracken started Indiana University today on its second hunt for a new head coach in 10 weeks.

McCracken, 57, announced Tuesday night he was stepping out at the end of the current season, his 24th with the Hoosiers.

Indiana's head football coach, Phil Dickens, resigned in December and was succeeded in January by John Pont, former head coach at Yale.

McCracken said he was not resigning because of ill health or pressure but wanted to get out of coaching before his health became affected.

He holds a full professorship in the school of health, physical education and recreation and said he will remain with the university.

McCracken's record for 24 seasons at Indiana, with two games to go, is 362 victories and 174 defeats. His Hoosier teams have a 208-116 record in the Big Ten and hold a winning margin over each of the other schools. They have won three conference championships and tied for one.

He is the only Big Ten coach with two NCAA championships, won in 1940 and 1953.

The Hoosiers started this season with nine straight pre-conference victories but lost their Big Ten opener to Illinois and now stand 17-5 for the season and 7-5 in the Big Ten.

ment with its 25-0 mark.

No. 25 was accomplished behind Avery Godfrey's 24 points and Ted Day's 21. Cedarville (23-4) kept it close for 15 minutes but Central outpointed the Cedars 17-4 and stretched a 23-22 lead to a 40-26 halftime command.

In regular season Ohio activity Tuesday night, Cleveland entries in the Presidents' Conference split in Pennsylvania. John Carroll drubbed Allegheny 86-59 but Thiel defeated Western Reserve, 94-81.

Hinton Looks Good as Tribe 2nd Sacker

TUCSON, Ariz. (AP)—Coach Solly Hemus likes the way Chuck Hinton, the outfielder the Indians acquired from the Washington Senators, looks at second base.

"I believe Hinton can become one of the best second basemen in the game if he makes up his mind to do it," Hemus said after seeing Hinton work out in the infield Tuesday.

"This kid is one of the few truly complete players in our league," Hemus said. "He must be ranked in the super star category because he can do everything well—run, hit, throw and steal bases."

"Chuck also is above average defensively, and I'm sure he's capable of playing any place you want to put him, just as Willie Mays is."

No final decision has been reached, but observers here are predicting that when the season opens Hinton will be on second.

Manager Birdie Tebbetts has four "regular" outfielders he wants to keep in the lineup at the same time. Both Hinton and Rocky Colavito are considered good prospects for infield work, but Hemus says he'll make no recommendations until he sees them under actual game conditions.

Pool Player Really Behind Eight Ball

SPRINGFIELD, Ohio (AP)—A Springfield man made a dive for the proverbial 8-ball Tuesday night—and wound up behind man.

Fire division emergency squadmen were called to a grill to assist Kenneth Haynes, 21. According to squadmen's report, Haynes made a quick try to keep the 8-ball from going into the side pocket of the grill's small pool table.

He jammed his hand into the pocket with such force he couldn't get it out. Squadmen freed his hand by getting beneath the table, under the pocket, and squeezing as Haynes pulled his hand out.

Prep Pole Vaulter Soars 16 Feet 4 3/4

LOS ANGELES (AP) — Paul Wilson of Warren High School shattered his national prep pole vault record Tuesday when he soared 16 feet 4 inches.

The high school senior made the record leap in his first attempt, after becoming the first prep schooler to make the 16-foot mark last year. Three attempts at 16-9 failed.

Henry Finkel of Dayton, Billy Cunningham of North Carolina, Willie Somerset of Duquesne, Flynn Robinson of Wyoming, Steve Vacendak of Duke and Oliver Darden of Michigan received one vote each.

Some College Coaches Revel, Others Resign

By THE ASSOCIATED PRESS

Dave Strack and Joe Mullaney, the basketball coaches at Michigan and Providence, respectively enjoyed a nice Tuesday evening. It was different for Babe McCarthy, coach at Mississippi State, and for Branch McCracken, coach at Indiana.

Strack, observing his 42nd birthday, got a present of a 98-75 victory over Wisconsin from his nationally No. 1 ranked Wolverines, a triumph that cinched at least a tie for the Big Ten championship.

The 40-year-old Mullaney hit the 200-victory milestone of his career as his Friars, fourth-ranked in The Associated Press Poll, walloped Massachusetts 102-75.

In contrast, the veteran 57-year-old McCracken, coach at Indiana for 24 years, resigned effective at the end of the season. McCarthy, 41, also resigned, ending a 10-year tenure at Mississippi State.

Indiana has a 17-5 record with two games left. Mississippi State ended its season last Saturday with a 10-16 mark.

Cazzie Russell and Bill Buntin paced Michigan with 24 and 20 points, respectively, at Ann Arbor as the Wolverines won their 12th straight and upped their over-all mark to 20-2.

Michigan now can win the Big Ten crown outright by defeating Minnesota Saturday. The Gophers stayed alive Tuesday by beating Iowa on the road 78-70 behind Lou Hudson's 20 points. Michigan is 12-0 in conference play and Minnesota, sixth-ranked in the AP poll, is 10-2.

Jim Walker and Dexter Westbrook each flipped in 21 points for Providence as the once-beaten Friars closed out their home season with a 21-1 record. The Friars play at Brown Friday before taking on West Virginia in the first round of the NCAA tournament at Philadelphia Monday.

Texas AM upset Southern Methodist with a home court 94-81 victory and enabled the Texas Longhorns to tie the SMU for second place in the Southwest Conference. Texas, playing at home, defeated Texas Christian 84-63.

The runner-up team in the SWC will go to the NCAA tournament since Texas Tech declared itself out of tournament consideration last week because of an ineligible player.

Thursday's Arkansas at SMU and Texas at Baylor games probably will decide the SWC NCAA representative. SMU and Texas each are 9-4 in league play with Baylor right behind at 8-5. Baylor defeated Rice 79-72 Tuesday.

Detroit, bound for the NIT in New York, defeated Marquette 90-76 at Milwaukee. In other games, Illinois downed Northwestern 93-70 at Evanston.

Bradley crushed North Texas 102-77 at Peoria and Missouri whipped Nebraska 84-66 at Columbia, Mo.

76ers Step Away From NBA Playoff

By THE ASSOCIATED PRESS

The Philadelphia 76ers may back into the National Basketball Association playoffs unless their backcourt gets healthy in a hurry.

Philadelphia suffered its fourth straight setback Tuesday night, bowing to Los Angeles 126-117 in the opener of a doubleheader at New York. But the Knickerbockers' 99-98 loss to St. Louis in the second game left the 76ers one step away from clinching an Eastern Division playoff spot.

Cincinnati bombed San Francisco 121-105 in the other game scheduled.

Rip Van Winkle Couldn't Sleep with Nagging Backache

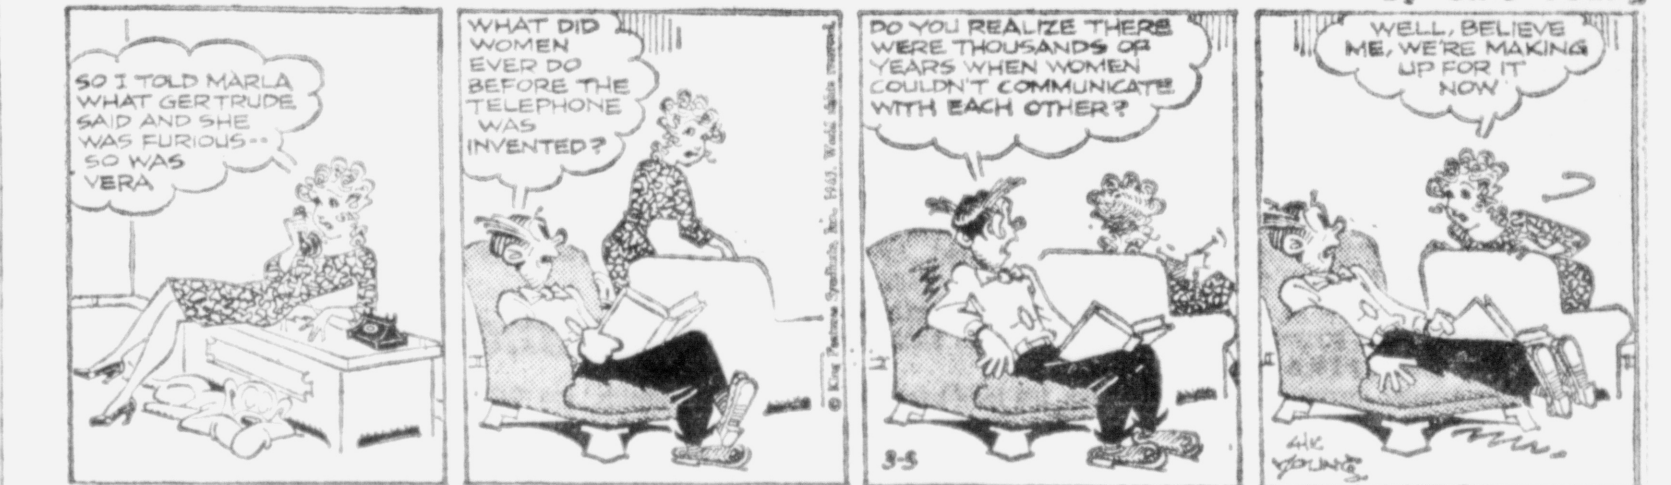

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain — you want relief — want it fast! Another disturbance may be mild bladder irritation following wrong food and drink — often setting up a restless uncomfortable feeling.

Doan's Pills work fast in 5 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains; 2. by soothing effect on bladder irritation; 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience, ask for the Doan's Pills today.

U.S. Jets Fly Mystery Strike

SAIGON, South Viet Nam (AP) — More than 30 U.S. Air Force jets flew a mystery strike today from Da Nang air base. It was believed they hit at Communist positions in Laos.

Officials at Da Nang, 100 miles south of the border with North Viet Nam, would not disclose the targets of the strike. American officials in Saigon said there had been no strike against North Viet Nam today, but they refused to say whether raids had been made elsewhere outside South Viet Nam.

American jets have been hitting Communist targets in Laos fairly regularly for the past few months.

A high Vietnamese source at Da Nang said the strike was against Communist targets either in North Viet Nam or in Laos. He declined to say which. He said regular attacks against Communist targets in both countries could be expected in the future.

The American F100 and F105 fighter-bombers were heavily loaded with bombs and rockets. No Vietnamese planes took part in the mission.

President Johnson said in Washington Tuesday night that six planes were shot down in Tuesday's massive air raid against Red military targets in North Viet Nam and that five of the pilots had been rescued.

U.S. officials in Saigon said four Americans and one Vietnamese were rescued and one American pilot was still missing. A U.S. spokesman refused to say whether he was down in North Viet Nam.

Moscow radio said "one pilot bailed out in a jungle area and a search has been organized" by the North Vietnamese. The broadcast said the plane went down near Quang Khe, a North Vietnamese navy base about 60 miles north of the border and one of the raid's prime targets.

A North Vietnamese army communiqué reported by the Soviet news agency Tass said nine American and South Vietnamese planes were shot down Tuesday.

More than 160 land-based U.S. and Vietnamese planes attacked Quang Khe and a munitions depot at Xom Bang, 15 miles north of the border.

Planes of the U.S. 7th Fleet did not participate in the raid, but took part in the protection and recovery of several of the downed fliers.

Seven Navy propeller-driven Skyraider fighter-bombers from a U.S. aircraft carrier buzzed a line of North Vietnamese boats near one downed American flier, Lt. James A. Cullen, 28, of Winchester, Mass., until an amphibious plane landed and rescued him.

THOMAS SMITH

Smith Starts New Duties as City Fireman

Thomas Smith, 229 W. Mill St., assumed his duties yesterday as the newest member of the Circleville Fire Department.

With Smith's employment, the department is once again up to full employment strength, according to Fire Chief Bernard Wolfe.

Smith replaces Donald Edgington who resigned recently.

Married to the former Louise Francis of Williamsport, the new fireman is the father of two children, Cheryl, 4, and Thomas, 2.

HE WAS graduated from Circleville High School in 1957. He then served four years with the United States Air Force.

Prior to accepting the position on the fire department Smith was employed at J. W. Eshelman and Sons.

Solons Hear Of Difference In Drug Price

COLUMBUS, Ohio (AP) — A Columbus man told the Ohio House Health Committee Tuesday that he found more than a \$6 difference between drug stores on the price of the same medicine.

Arthur J. Martin delivered the testimony as the committee held its third hearing on a measure that would prohibit advertising in Ohio of prescription drugs by name and price.

Martin, who said he was testifying "as a citizen with no advertising connections," called the bill "a smoke screen . . . there's been a lot of talk from its proponents about public health, but I think the real issue is the exorbitant cost of prescription drugs."

The so-called "Ban the Balm Bill" has the backing of many Ohio physicians and pharmacists.

Appearing for the Ohio Newspaper Association against the bill were William Oertel, executive director, and Paul R. Gingham, general counsel.

Tertel said ONA membership "object strenuously" to enactment of the bill.

He said, "It is clearly unconstitutional and outright censorship . . . a guinea pig bill . . . which would open the way for further restrictive legislation."

News of World in Brief

WASHINGTON (AP) — For the first time in the history of American aviation, the government has listed lightning as the probable cause of an airliner crash.

The finding was announced today in a report by the Civil Aeronautics Board on the crash of a Pan American World Airways plane near Elkton, Md., Dec. 8, 1963. Eighty-one persons were killed.

Lightning ignited the mixture of fuel and air in the No. 1 reserve fuel tank at the tip of the left wing of the Boeing 707-121, the board said. The result was an "explosive disintegration of the left outer wing and loss of control."

NEW ORLEANS, La. (AP) — Ashes replaced greasepaint on the faces of Mardi Gras revelers today as solemnity followed merrymaking in "The City That Care Forgot."

Many masqueraders — who Tuesday lived as kings and queens, devils, dancing girls, and pirates — unmasked and went to church to begin the penitential 40-day Lenten period.

Deputy Police Supt. Al Theriot said a half million bon vibrations packed streets from wall to wall along the six-mile Rex parade. Another half million may have watched the six other parades — some of which rambled through suburbs.

HARWICH, Mass. (AP) — This Cape Cod town will continue to have a Lover's Lane.

Harwich Town Meeting Tuesday night rejected a proposal to change the name of the road to Homestead Lane.

Backers of the proposal complained the present name detracted from the dignity of the neighborhood and thus decreased property values.

JAKARTA, Indonesia (AP) — Reports today from North Sumatra said the Indonesian government would formally take over American rubber plantations there valued at \$80 million.

Government officials in Jakarta described the action as a "management takeover." But Western diplomatic legal experts said it was a confiscation, and that the term was not being used so the Indonesian government could reject any claims by the American owners for compensation.

The plantations are owned by Goodyear and the U.S. Rubber Co. They have an area of about 170,000 acres and include two hospitals, a rubber mill and several other buildings.

JUNEAU, Alaska (AP) — A 10,415-foot mountain in Alaska may be named for a Civil War soldier who saved the life of Secretary of State William H. Seward the night President Abraham Lincoln was assassinated.

The State Geographic Board recommended Tuesday a peak in the Chugach Mountains be named for Sgt. George F. Robinson.

Robinson, assigned to nurse Seward, who had been injured in an accident, foiled an attempt to kill Seward April 14, 1865, the night Lincoln was shot.

Two years later, Seward engineered the purchase of Alaska from Russia.

WASHINGTON (AP) — President Johnson says the government is going to increase its

research into the secrets of the ocean.

In letters to Vice President Hubert H. Humphrey and House Speaker John W. McCormack, D-Mass., the President said such work may lead to faster transportation, greater use of marine mineral and fisheries resources, better predictions of the storms and tides which endanger life and property and improved national defense.

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara has ordered a new study aimed at finding economies in the nation's military support activities in France, Spain, Italy and Japan.

In an announcement Tuesday, the Defense Department stressed that no combat units are to be redeployed to the United States because of the study.

The investigation will revolve around logistics administrative functions, civilian employment, dependent support, overseas procurement, construction and facilities.

WASHINGTON (AP) — The United States is reviewing its economic aid program to Indonesia, but a spokesman says no decisions have been made.

State Department press officer Marshall Wright said Tuesday that about \$1.4 million in U.S. assistance is ticketed for technical training, malaria eradication and aid to education in the Southeast Asian nation.

Much larger U.S. aid was cut off some time ago after President Sukarno told America to "go to hell" with its assistance.

OHIO CASH GRAIN

COLUMBUS, Ohio (AP) — Ohio Dept. of Agri. cash grain prices: No 2 red wheat mostly unchanged, 1.38-1.43 mostly 1.39-1.41; No 2 yellow corn unchanged to one higher 1.16-1.21 per bu. mostly 1.19-1.21; No 2 oats mostly unchanged, 1.65-1.80 mostly 1.67-1.68; No 1 soybeans 2.3 higher, 2.80-2.92, mostly 2.90-2.92.

Lady Bullfighters Train

LOS ANGELES (AP) — Charlene Abernathy, 43, anxious to share her knowledge of bullfighting with others of her sex, brandished a pair of horns and pretended to be a charging bull.

Berger Hospital News

ADMISSIONS
Frederick Mace, Route 3, medical.

Retha M. Frazier, daughter of Mr. and Mrs. Roscoe Frazier, Route 1, Stoutsville, tonsillectomy.

DISMISSALS
Mrs. Bernard Mogan and son, 130 W. Ohio St.

Joellen Schlichter, Route 3 Cynthia Karshner, Route 1 Mrs. Philip Judy and daughter, Route 1, Laurelville

Mrs. Donald Holcomb and son 476 Dearborn Ave.

A score of young women watched. They appeared in Griffith Park in answer to Miss Abernathy's advertisement for girls interested in learning the art of bloodless bullfighting.

Miss Abernathy, a slim, tailored blonde, says she has given bullfighting exhibitions in Mexico, where she learned the matador's technique. She said she hopes to train a team to tour the United States demonstrating the art.

"After two months of training," said Miss Abernathy, "we'll be ready for the first live animal. Later we'll get around to real fighting bulls — about 700 pounds on the hoof."

"But," said Lora Davis, 22, a model and a student bullfighter, "they'll have padded horns, like in Portugal."

"Of course," said Miss Abernathy. "Crowds love to see us thrown — but not gored."

The girls include housewives, secretaries and models. Many

said they came to the first lesson out of curiosity. The appearance of live bulls is expected to cut attendance a trifle, but Miss Abernathy hopes she'll keep enough girls to form a demonstration team.

The girls are training with horns from which the bulls have been removed — although one set is mounted on a wheeled cart, called a carretilla, at which neophytes can wave capes.

In bloodless bullfighting swords aren't used, and most of the risks are assumed by the matador.

"Now," said Miss Abernathy, spinning her cape, "this is a right-hand pass."

Carol Christmas, 27, a bathing suit model, giggled. "Most of us already know about those," she said.

Oil from the jaw of a porpoise once was preferred for lubricating fine watches.

Elks Honor Vet Members, Welcome Three New Ones

Circleville BPO Elks Lodge, taking a cue from the ancient Roman deity, Janus, spent Tuesday evening looking both forward and backward.

Starting with a 6:30 dinner and ending four hours later with a business session, the lodge initiated three candidates, paid special tribute to its veteran members, selected an "Elk of the Year" and then officers for the coming fraternal year.

Initiated as new members were John E. Fuller, Lester Lingo and Robert Wilkinson.

Two members were honored for 50 years of membership. They were J. Wallace Crist and James Sweetman.

FIVE MEMBERS were cited for having completed 35 years in the order. They were Emmett Crist, Edwin Shane, Wayne Leist, Michael Binkley and Lewis Holderman.

"Elk of the Year" honors went to David S. Goldschmidt, a past exalted ruler and a past state president who still main-

DR. DAVID GOLDSCHMIDT

tains several local, district and state activities.

In the business session, Marshall Winner was nominated to succeed William Rieckey as exalted ruler during the lodge year beginning April 1. Formal election is scheduled for Mar. 16. Installation of officers will be held April 10.

Other uncontested nominees are: Leading knight, Gene Lindsey; loyal knight, Robert Huffer; lecturing knight, Chester McKenzie; trustee, Karl Drum; treasurer, Warren Baker; and tiler, Tom Stocklen.

There will be a contest for the office of secretary with Andrew Thomas and Forrest Webster nominated to succeed J. Russell Valentine, who declined to serve another term.

Meet Set Tomorrow

The Pickaway County Society for Crippled Children and Adults will meet 7:30 p. m. tomorrow in the home of Mrs. C. O. Schweizer, 340 Lewis Road.

More apples are produced in the United States than in any other country.
